

Risk Management

The Risk Management Division of the City of Etowah manages programs in the areas of employee safety, loss prevention, property, casualty, and employee benefits and wellness.

Risk Management attempts to protect the City's physical and financial assets against loss by maintaining effective insurance programs, minimizing the City's exposure to risk.

Risk Management also provides internal investigation services for the City on claims arising out of automobile, general, police, professional, and employment practices liability exposures. In addition, Risk Management monitors the workers' compensation and employee health benefit programs being handled by third party administrators.
